Re: Final SOGs

The final draft of the SOGs are now being issued. They will be issued periodically until the complete set is done. The SOG's will be located on the "I" drive, in a paper format at stations #1-4 and on c.d. when the final set is completed. Thank you for all the hard work of the many persons who wrote and reviewed the drafts of these documents. It is a collaborative effort that we all can be proud of.

Each SOG will have a two week learning period before being officially adopted. You may note changes that need to be made to some of the SOGs as we progress. Please note these suggested changes, however, no changes, unless they affect safety, contractual conflicts or conflicts between the SOGs will be accepted until the complete set are published. Otherwise we will never get them out.

An annual review and revision will be made to the SOGs, and that is the appropriate time to make these further modifications, excepting contract related SOGs.

Please remember that these SOGs are published for the purpose of providing guidance. They cannot nor should they address every situation we will encounter. You are all expected to use your education, training, experience and judgment to address the various situations we will encounter. These SOGs are not intended to replace or supersede the Personnel Regulations, IAFF Contract, CBJ Ordinances or the City Manager's Policies.
